

ADP DataCloud® Diversity, Equity and Inclusion dashboard

Gain visibility into your company's diversity data

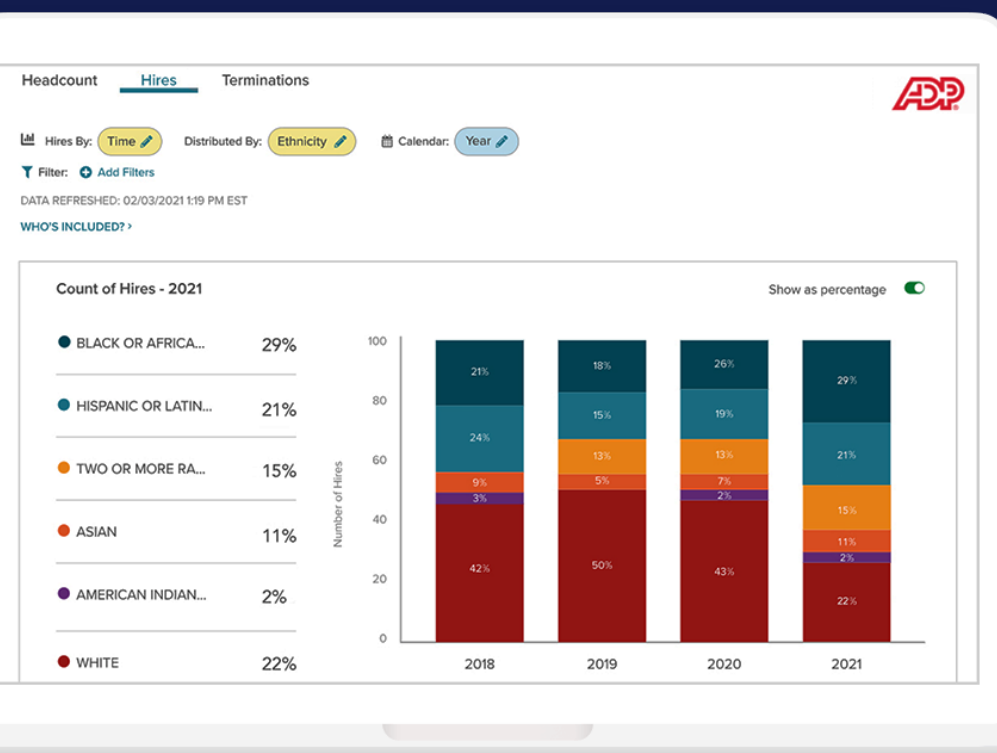

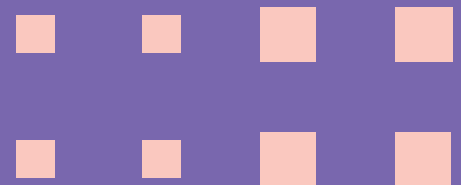

Advancing diversity, equity and inclusion (DE&I) in your company starts with understanding the current state of your workforce demographics. Accurate, current data provides the foundation for making action plans and tracking progress.

With the **ADP DataCloud Diversity, Equity and Inclusion dashboard**, you can easily view the composition of your organization and your leadership with a preconfigured, guided analytics experience that helps you answer questions like:

- How diverse is my workforce and my organization's leadership?
- Are there areas of my organization that are not as diverse as others?
- Are there particular reasons for termination that are impacting DE&I the most?

**ADP DataCloud
won 2021 Top HR
Product from Human
Resource Executive**

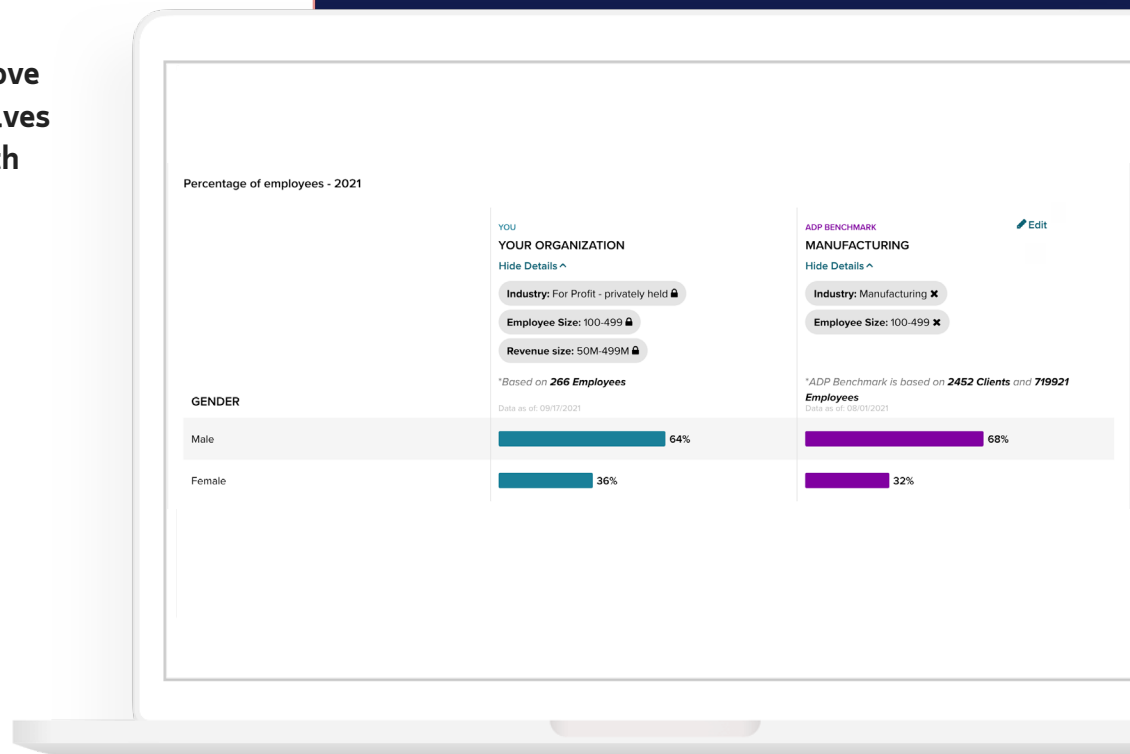

Simple turnkey analytics for workforce composition, hiring, turnover, leadership positions and more, filtered by race/ethnicity, gender, age and veteran and disability status.

Often, DE&I data can be difficult to access and, when available, can require complex processes to stitch together and then analyze the data. But with ADP DataCloud, you can skip lengthy and expensive implementation projects and accelerate time-to-value by tapping into data that already exists in your ADP HR system.

Bring your company's DE&I journey to life with an easy-to-use experience geared toward rapid understanding. Communicate the current state and recent trends, and make recommendations grounded in reliable data. **Shape and improve your company's DE&I initiatives to make a real difference with this intuitive, convenient dashboard.**

DE&I Benchmarks replace outdated, inaccurate survey data with live HR and compensation data from ADP's vast workforce dataset of more than 920,000 companies and 30 million employees.
