

# ADP Workforce Now<sup>®</sup> benefits with decision support

## There's a better way to choose benefits

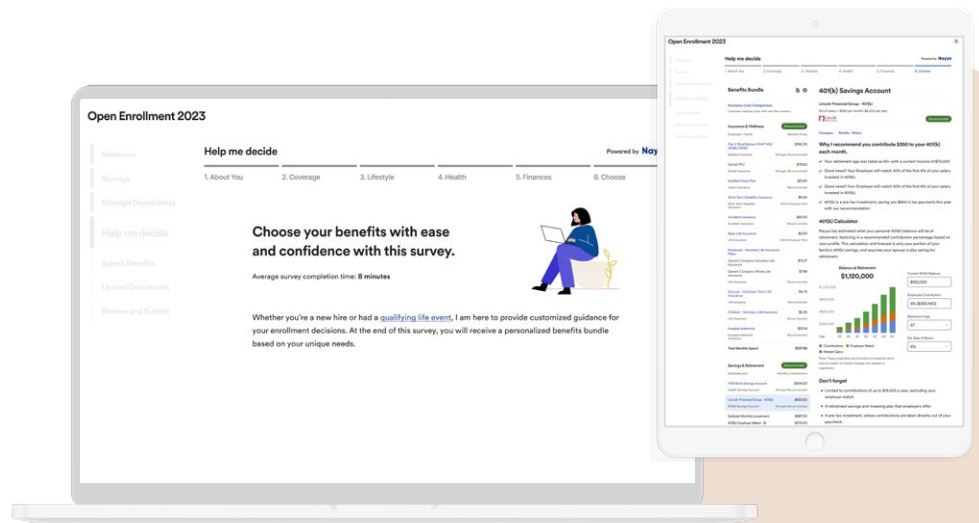

Benefits aren't broken, recommendations are. Use our unmatched decision support to transform the benefits experience for your employees.

Help employees select the benefits and retirement offerings that are right for them with a personalized approach. Through a series of questions and steps, individual needs are uncovered to determine which benefits are the best fit for your employee, helping them feel confident in their decisions.

And, employees can rest assured that their choices and relevant personal information is shared quickly, accurately and securely between your company and the benefits provider. And they can enroll quickly and easily — anytime, anywhere.

## Take the guesswork out for employees when choosing benefits

- Improve employee engagement by personalizing the benefits experience
- Guided process walks employees through enrollment
- Series of questions collects employee details on individual needs to create a personalized best fit recommendation
- Provides a bundled recommendation — beyond Health & Welfare — but all the benefits available to an employee, including voluntary benefits and savings and retirement
- Gives employees confidence in their benefit decisions
